

# Red Flags

## A safe and trusted adult would never...

- ❌ **Make you feel unsafe**
  - Make you feel scared or uncomfortable
  - Hurt you or threaten you
  - Blame you for something unsafe they did
- ❌ **Ignore your boundaries**
  - Make you feel bad for saying "no" to hugs or kisses
  - Enter your body boundary without your consent
  - Try to get you alone without other people around
- ❌ **Touch or talk about private parts inappropriately**
  - Touch your private parts (unless it's for your health, you've been told why and your safe and trusted adult is with you)
  - Ask you to touch their private parts
  - Show you pictures of private parts
- ❌ **Ask you to keep unsafe secrets**
  - Tell you to keep unsafe secrets
  - Stop you from talking to another safe adult
- ❌ **Do unsafe things online**
  - Ask you to send pictures of your private parts
  - Ask for personal information online or offline
  - Ask to have private chats with you online
  - Speak about unsafe things online or offline

**BODY SAFETY  
RED FLAGS**

**!** If any of these things happen, make sure you tell a trusted and safe adult on your Safety Network.

## REMEMBER!

If a trusted adult isn't available, or doesn't help, keep telling another trusted adult on your Safety Network until you get the help you need.

What happened is never your fault, and it is never too late to tell a trusted adult.
